Compass Demonstration - Script

Student: Hi Professor.

Teacher: Hi, how are you doing?

Student: I'm doing well, thank you.

Teacher: What brings you in today?

Student: Well, professor, I'm having a tough time in class. I feel like I'm doing everything, but nothing is working.

Teacher: We've all been there, let me see what's going on through compass.

[Open Compass]

Teacher: Could you remind me of your student ID? I teach 3 classes and 60 students this year, and gets hard to keep up with everyone.

Student: No problem, my ID number is 3.

[Teacher finds Liam Johnson]

Teacher: Ok Liam, I see you have a:
- Grade
- GPA
- Attendance
- Best vs Worst Topic

Student: Ouch…yes, that's all correct.

Teacher: Okay, let's check out your assignments:
- Best grade
- Worst Grade
- Missing assignments
- Submit your assignments earlier, too

Teacher: I still have to grade your data structures quiz, and you're doing well in Data structures and Algorithms. But if you want to improve your grade:

- You need to come to class more
- You need to review your machine learning and other topics
- You need to submit your assignments on time, including your Presentation slides.

Student: I understand, thank you for your feedback, professor.
